

Aspects of Lung Development and Function

A symposium to recognise the scientific contribution of Professor Dafydd Walters

1000-1830, Monday 5 July 2010

University of Winchester, UK

This symposium celebrates the semi-retirement of Professor Dafydd Walters.

Dafydd is Professor of Child Health at St George's Hospital Medical School (London, UK), has been active in physiological research on ion and water transport and was the Chairman of the Executive Committee of The Physiological Society between 2002 and 2004.

The outstanding programme of speakers will include:

Richard Olver, Dundee (UK);
David Warburton, Los Angeles (USA);
Daniela Riccardi, Cardiff (UK);
Leland Dobbs, San Francisco (USA);
Sandra Guggino, Baltimore (USA);
Abby Fowden, Cambridge (UK);
Emma Baker, London (UK);
Howard Clark, Southampton (UK);
Stuart Wilson, Dundee (UK);
Stephen Holgate, Southampton (UK)

You are invited to submit abstracts related to the theme of the symposium for poster presentation.

The Physiological Society's funding will support free registration for up to 42 Society members (allocated on a first come first served basis, after which a £60 registration fee will apply).

There will be a dinner following the symposium and a ticket can be purchased in advance for £41.

For further information, abstract guidelines and registration please contact Dr Lucy Green at fnps2010@soton.ac.uk or call 023 8079 6373/5253.
